THAT NEWS-MEN MAN.—The Democratic delegate from Puget Sound, whom we mentioned yesterday morning as having effected an escape from limbo through the mysterious disappearance of the warrant upon which he was arrested, was found yesterday morning, captured and brought ingloriously back to this city in the afternoon. Officer Saunders, through whose fingers he slipped so nimbly the evening before, did the trick. He watched [illegible] his premises during most of the night but not finding the man of many votes, concluded to take a little exercise on the Cascade which usually touches at Vancouver to land passengers northward bound, confident that he should meet with his friend again. Saunders, being on an excursion, thought it would be a pity to go to sleep when there was so much beautiful scenery lying around loose just to be looked at; so he fed the views from numerous positions on the boat. Finding, however, as last a stateroom into which he couldn't peep by reason of a jealous lock, it occurred to him—accidentally, of course—that the mizzled man might have strayed into that same room and might have thoughtlessly turned the key on the inside. Saunders followed up this happy suspicion and found means to open the inhospitable door. Sure enough, there stood the very man he wanted in the act of making his toilet. Saunders of course nipped the unsuspecting victim of circumstances, prevented his landing to see his friends at Vancouver, and finally persuaded him to disembark at Sandy, on the Oregon side, whence he brought him back, partly on foot and partly in an open wagon drawn by a cayuse pony and a mule. When the two arrived at this city, the [illegible]sentative man with nine proxies looked about as sweet and crestfallen as a lame duck. Saunders, however, though a little tired, seemed as gay a detective as we ever saw. He had got even, if not a little ahead of the "smart aleck," and could afford to be gay. Upon the arrival of the representativesman becoming known to the [illegible] in this city, there was such getting up stairs and such a hunting around among the faithful for green backs! A sufficient amount of Radical rags were finally gathered to satisfy the rapacious demand of the possessor, and the nine Democratic votes were released from custody. Thus ends the second chapter of Dr. Robert[illegible]'s eventful pilgrimage to Vancouver via Portland, via Sandy river, and via the law's "hard road to travel."

PERSONAL.—Hon. S. Garfields of Washington Territory, gave us a call last evening.

Gov. Woods returned home yesterday morning.

Among the notables of Oregon and Washington Territory now in this city, we notice Judge H[illegible]y, lately Associate Judge for Washington Territory; Hank Clark, of Steilacoom, Judge Hewitt, of Olympia, Robinson Cox and Dr. Baker, of Walla Walla, Major [illegible], of Steilacoom, and several others of lesser note from the sound and north.

[illegible] went to St Helens on Monday to hold a session of the Circuit Court for Columbia county.

Messrs. Mercier and Messrs. Buchanan and other [illegible] will give a concert at Vancouver this evening.

The steamer *Gussie Telfair* reports two barks off the bar, not made out.

A young man from the country, who was foolish enough when on a former visit to this city, some weeks ago, to amuse himself by inviting an unoffending Chinaman into town day before yesterday and was [illegible]arily arrested, was tried yesterday and sent to jail for three days.

The *Commercial* says: We heard of an individual—of whom it never would have been suspected—going into a [illegible] down-fall in this city on last Sunday evening, and after [illegible] draughts of the liquid fire, he was induced to [illegible] in a game of "seven-up;" but he was so full that his luck soon "got down," and he found himself [illegible] out of about $40 at the close of the game.

TO THE NERVES OF SUGAR EATERS.—Some enemy [illegible] has been making microscopic observations upon sugar and has published the following discovery as one of his researches: "The *Acarus Sacchari*, or [illegible] may not be a novelty to entomologists, but the public will learn with alarm the fact that unrefined sweetness is alive with 'animules.' One [illegible] that there cannot be less than one hundred in every pound of raw sugar. We have heard tell of 'animated cheese,' but 'civilized animalcule' is startling. And the worst of it is, these [illegible]rable, under a microscope, the same [illegible] are the same claw feet and shell backs, but [illegible] with sharp pikes that stick [illegible] like an angered porcupine. Imagine a [illegible] of these amiable animalcules in a man's [illegible] the result of a single cup of coffee! And then [illegible] and push their way to the surface [illegible] and membranes, where they perch [illegible] under the skin. Their lodgement there is the signal [illegible] will be extensively quieting to the [illegible] and drinkers of sugar. The discoverer [illegible] for his pains.

WALLA WALLA.—The Walla Walla *Statesman* of the [illegible]: The I. O. of O. F. will celebrate the [illegible] of the introduction of the Order into the United States by a grand ball, to come off at Bank Hall, on Monday evening, April 26th..... At the [illegible] of Washington Engine Co., No. 1, held on Monday evening last, the following [illegible] were elected as officers of the company for the year: John G Justice, Foreman; W. B. [illegible]; J. L. Cook, Second Assistant; [illegible], Secretary; Wm. Kohlhoff, Vice President. [illegible]; James Bourne, Treasurer.....The [illegible] is now known as Fort Walla Walla has been converted into a post of grand veterinary establishment [illegible] and disabled Government animals are sent to [illegible] over eight hundred of these broken down [illegible] were wintered here at a cost to the Government for hay, oats and barley of over $22,000, every [illegible] went directly into the pockets of our [illegible] to take care of these animals fourteen men [illegible] and paid at the rate of $60, or $8 total of [illegible]. In round figures, there has been disbursed in this valley within the last five months the [illegible] for the feeding and care of Government [illegible].

STEAMER FOR SAN FRANCISCO.—The steamer *Oneida*, [illegible] Commander, arrived at 5 o'clock yesterday, from Victoria:

Left Victoria April 18th at 6:30 A. M.; [illegible] out of the Straits at 2 P. M.; crossed Columbia [illegible] at 12:30 P. M., April 19; arrived at Astoria at [illegible] A. M., and arrived in Portland at 4 A. M., on the [illegible]; the entire passage had strong W. S. W. [illegible] gales with an ugly sea running. Two barks [illegible].

[illegible] J. M Sparrow and 2 children, W Sparrow, Mrs H Fra[illegible] and child, L Freeman, Miss Sarah Freeman, Miss [illegible] Hoare, Mrs Foster and 2 children, Miss E Ford, H [illegible] Edge, James Shannon, I Stevens, C Stevens, M Riley, S Berney, W Guess, J Briscoe, and 12 in the steerage.

A GEM.—A gentleman who lives on a farm about [illegible] from East Portland, brought over to this city [illegible]'s young chicken which has four distinct legs. [illegible] usual joints and furnished with feet as perfect. [illegible] Three of them belong to one side; one of [illegible] used in walking, though the others move as [illegible] to make it [illegible]ornamental, but like every [illegible] where things or people are too numerous, [illegible] only to create confusion and hinder the legitimate [illegible]. The legs are mixed. Two of them [illegible] from the same thigh, while the third one comes [illegible] under the wing and goes it alone. The leg [illegible] side is perfectly natural and the chicken has [illegible] except the triplet walking pins, and is [illegible] as a cricket. As a curiosity, we think this [illegible] rather ahead of Bro. Ireland's *string of* [illegible].

THE INSURANCE.—A Division of the Sons of Temperance organized by Wm. R. Dunbar, Deputy G [illegible] the French Prairie, in Marion county, with [illegible] on the 14th inst. J. W [illegible] is the organization. It takes the name [illegible], No. 4." The following are the [illegible]: Rev. G. W. Dimmick, W. P.; Hattie Farnsworth, A.; J. B. Dimmick, R. S.; L. J. King, A. [illegible]; A. Thomas, F. S.; Jane Boynton, T.; James [illegible], Chap.; A. J. Boynton, C.; Emma Farnsworth, A. C.; Hamilton Morrison, I. S.; N. M. Sewall, [illegible]; Hubbard, P. W. P.

BY A HORSE.—On Monday, at Forest Grove, a [illegible] named Orion Brown, aged about nine years, son of Mathew Brown, was kicked by a horse and received [illegible] that he died the following morning. The little [illegible] was passing just behind the horse, when the animal [illegible] him a severe blow in the stomach. The accident occurred at four o'clock and the boy died at two o'clock the next morning.

SUNK.—The favorite steamer known as the [illegible] *Dean*, belonging to the Long Tom Transportation [illegible], sunk between Harrisburg and Autery's Landing with one thousand bushels of wheat belonging to the [illegible] Woolen Company. The boat was tied up for the night. Capt. Cook and the deck hands were all asleep and not aware of the accident until their bunks were [illegible] with Willamet dew.

MAILS WATER BOUND.—The southern mails for this city, due Monday evening, did not arrive until ten o'clock A. M. yesterday, in consequence of high water in the [illegible] which the stages have to cross. The reports from all the country south, are of high water and floods in all the small streams. The mail is, therefore, liable to be irregular for several days. The telegraph reports a slight letting up of the storm in California.

HOME AGAIN.—Dr. Bewley arrived at this city yesterday, overland from the States. Messrs. Meacham, Underwood and others, were still at Washington when the Doctor left that city. The Doctor came alone, by way of New Jersey, New York City and Chicago, tarrying some days at each place. He expressed himself as decidedly glad to get home again.

COMMITTED FOR ASSAULT WITH A DANGEROUS WEAPON.—George Forest, arrested for an assault with a knife upon [illegible] Burton, (both of them sailors belonging to the *Hatter* [illegible]), had an examination yesterday before Recorder [illegible], and was held to answer in the Circuit Court, bail being fixed at $500. Failing to give security, he was [illegible] to the county jail.

A LIVELY DAY.—Yesterday was an unusually lively day in the police court. One drunk, and broadsiding a [illegible]; a charge of grand larceny, dismissed; indecent [illegible] of person; two drunks and disorderly; one assault and battery, and one assault with a dangerous [illegible].

REVISED ASSESSMENTS.—The assessment list for this district is now open for examination and correction. Parties who have been over-assessed, and who wish to have the list corrected, must make application in writing before the 1st of May, as the list will then be turned over to the Collector.

THE MAILS.—The ferry at Milwaukie has been disabled by the loss of the cable, carried away by high water and driftwood, in consequence of which, the stages will, for a few days, come only to Oregon City, and the mails will be sent down by the morning boats. This arrangement will be, however, only a temporary one.

ORO FINO THEATER.—There was a full house last evening at Oro Fino, to see "Our American Cousin." We witnessed only the last act and cannot, therefore be a competent judge of the performance; we only know that from the time we entered till the close—Asa Trenchard—Mr. Wheatleigh—kept the audience in excellent humor, and provoked frequent peals of laughter, and that the entire performance was of such a character to reflect credit upon the [illegible] in the occasion of Mr. Wheatleigh's benefit. "Colleen Bawn" will be performed for the last time in this city.

[illegible] A bakery has been opened in this city, has been opened by Mr. Richard Miller at No. 79, east side of Front street, near the ferry landing. Dick is just the man for this business, and we cheerfully speak a good word for him. See his advertisement under the head of "New To-day" on second page.

[illegible] The steamer *Queen* left for [illegible] and Victoria on Sunday last, instead of Saturday, as [illegible] Monday, as was announced yesterday morning.

FOR PORTLAND.—The steamship *Continental* sailed yesterday afternoon for Portland, from San Francisco, [illegible].

PORTLAND LIBRARY.—H. Miller's [illegible] Engraving, etc., have been received at the Portland Library.

The Central Pacific and Union Pacific Railroads are to unite at or near Ogden, Utah, 742 miles from Sacramento, and 866 miles from Omaha, thus giving the Union Pacific 248 miles more than the Central. But when the Central shall add to it the 124 miles between Sacramento and San Francisco, there will be a difference of only 119 miles in their respective lengths.

NIGHT SCHOOL.—Mr. Fitzgerald has opened a Night School in the schoolhouse (up stairs) near the Catholic Church. For Terms—See the Teacher.

WALTHAM WATCHES.

The exclusive use of these watches for the last fifteen years by Railway Conductors Engineers and Expressmen, the most exacting of watch wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these timekeepers.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches COMBINING THE BEST AND LATEST IMPROVEMENTS, and at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent more for their watches than is necessary.

For sale by all dealers.

Manufactory Established in June, 1851.

STEAM POWER, NOS 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless buyers should be forewarned, and placed on their guard against this practice.

Efforts to Attract Immigration.

Nearly all the States of the Union south and west of Ohio are publishing and industriously circulating pamphlets in different languages, setting forth the advantages which they respectively offer for immigration. Not long since a pamphlet in English, issued by the Board of Immigration for Tennessee, fell into our hands. Missouri and Kansas have scattered similar publications, printed in several languages, throughout our own country and also in most of the principal countries of Europe. The latest of these pamphlets which has come under our notice is one issued in Minnesota for distribution all over the world. Its title is a taking one; we give what is found on the initial page "Minnesota—its advantages to settlers, being a brief synopsis of its history and progress, climate, soil, agricultural and manufacturing facilities, commercial capacities, and social status; its lakes, rivers and railroads; homestead and exemption laws; embracing a concise treaty on its climatology, in a hygienic and sanitary point of view; its unparalleled salubrity, growth and productiveness as compared with the older States; and the elements of its future greatness; published by the State for gratuitous circulation; is mailed free of postage." This is business; and the publication of similar pamphlets by different States in the Mississippi valley indicates the rivalry which exists among them in advertising their respective advantages to the outside world. If these States do it worth while to establish boards of immigration, to send emigrant agents of every nationality abroad to induce people to come into their borders, and to publish tons of pamphlets in all the principal languages for gratuitous circulation all over the world, how much greater is the necessity for the less known Pacific States and Territories to take measures for sending abroad a knowledge of their unequalled climate, soil, agricultural and manufacturing facilities, and the general advantages here offered to settlers seeking homes and desiring to improve their condition? The Mississippi valley States, like those further east, are fast filling with people, and homesteads there will soon be difficult to obtain. The tide will then be ready to roll its whole weight toward the Pacific. The advancing multitude should be supplied with that information which people there would be most anxious to acquire. A State can do much to attract immigration at any rate it is clear that many of our sister States think so, from the effort they are making.

Change of Positions.

It is wonderful the amount of enthusiasm that is manifested by a mere piece of bunting. Men of mature years, statesmen, philosophers, scholars and students have suffered and died for the honor of a flag. When questioned closely, however, they will tell you it is principle; and not a mere matter of silk or cotton that they have to do and dare. So John Bull used to argue that it was a great pleasure to expend more than he realized out of the government of Canada. It was the *principle* of the thing, "you know." Now John is less anxious to maintain the principles of the past. The London *Times* in a late article, commenting on a North American confederation, employs the following remarkable language:

It is worse than idle to represent the country as having already the Dominion of Canada to serve as a bulwark against the United States. Though arranged by the Imperial Government, the Confederation movement emanated from the Provinces themselves, and the Act of Confederation gives the Provinces more free than ever to dispose of their forces as they please. If the mass of the people should hereafter desire to enter the American Union, of which there is no proof or probability, England will assuredly not lift a finger to prevent it.

If this is true, we have a remarkable change in the relative positions of England and the United States. It is not long since John Bull expended millions merely to sustain the comparatively honor supposed to be affected by a change in the ownership or allegiance of Canada, whether the people of Canada desired it or not. Now, no matter how much England might object to it, she could not prevent the United States from taking forcible possession. But just when we have assured ourselves of this fact, the people of the United States are not particularly anxious to display their power in that way.

WHAT AN ENGLISHMAN THINKS.—Our Democratic friends are terribly excited because President Grant has sent negro ambassadors to negro countries. Of course, then, "they want white people to go to Hayti and Liberia and mix with "disgusting niggers." The Victoria *Colonist* says "the appointment of colored ambassadors to three countries in which the colored element predominates, is a creditable act, and should the experiment prove successful, it will go further towards breaking down the barriers of prejudice and consolidating the conflicting elements in the United States than all the acts affecting the *status* of the negro that have yet been passed." These are words of a writer who is free from the malign prejudice of race, and his remark is hailed as characterized by sense and candor.

The *Enterprise*, speaking of the wild and visionary statement of the OREGONIAN to the effect that he had derived from the Congressional grants in his State would not build one mile of a railroad, denounces the assertion as a libel on the State.—*Herald*.

The OREGONIAN never made any such "wild and visionary statement" as this, and both the *Herald* and *Enterprise* know it. What we have said about the value of the land grant has had reference solely to the Wallamet valley. In many parts of the State there are large tracts of good land yet vacant; but in Wallamet valley there are no vacant lands to amount to anything. This both the editor of the *Herald* and the editor of the *Enterprise* would be aware of if the one knew anything of Oregon beyond the precincts of a saw-mill yard, or the other had any knowledge of the State other than is afforded by an upward glance at the sky from the bottom of the Oregon City canon.

NEWELL JUBILANT.—The Walla Walla *Statesman* says: "Elwood Evans, 'the historian,' has been appointed Associate Justice for Washington Territory. We feel like taking off our hat and hurrahing for that appointment. Here's our hand, old friend." Premature rejoicing. President Grant having heard that Evans had been a political associate of Newell and other Copper-Johnsons, withdrew his name from the Senate and thus gave his disgrace a national notoriety. It is such "old friends" as these Copper-Johnsons that ruin a man's reputation and destroy his political prospects. O, that the repentant Elwood could be saved from such "friends!"

We are glad to see the Democratic press laboring with so much zeal to prevent the establishment of a monarchy, and are happy to place the positive opinion that this is one door in which they will not meet with ignominious failure.

Texas Beef and the Eastern Trade.

The Refrigerating Steamship Company, of New York, is preparing to transport carcasses of beef cattle from Texas to that city. The company is regularly chartered with a capital of $300,000. The round trip, we are told, will be made in from thirty to forty days. An agent will be stationed in Texas who will provide the cattle; and, under the present arrangements, about one hundred head will be slaughtered and stowed away per day. The steamship *William Taber* has been chartered by the company for the purpose of transportation. We clip from the New York *Tribune* the following description of the vessel and her internal arrangements.

The *Taber* is a vessel of about 900 tuns measurement, and is so arranged that she will carry 1,000 tuns carcasses in such a manner as to allow a free circulation of air around each carcass. The entire hold of the ship is lined with a non conducting felt, two inches in thickness, and when the proper machinery is in working order, the ship's hold can be cooled in an hour and a half. The extreme degree of cold is produced by a pressure upon carbonic acid gas, condensing it to a liquid form, and then allowing it to evaporize. This process produces so intense a degree of cold that personal contact with the ice or machinery will produce blisters on the flesh similar to those raised by burns. As a matter of course this temperature is altogether unnecessary for the preservation of meat, and would in fact be useless, it was only produced as an experiment. The refrigerator on board has a capacity of 800 pounds at a time, and ice was made and the ship cooled yesterday morning in one hour and a half. The air in the ship was reduced to a temperature of 26 degrees above zero. The air, as it came from the supply pipe by which the cold air was thrown into the hold, indicated a temperature of 18 degrees below zero. The temperature can be reduced to from 15 to 20 degrees below zero, but it is undesirable to freeze the meat, and the object is to keep the meat in an atmosphere where vaporization almost ceases, and where it is dry and cold.

SATISFIED.—For the first time the ultra radical element seems to be well satisfied with the National Administration. The *Independent Standard* regards the appointment of Mr Boutwell "as a guaranty that the pledges of the Government, not only in regard to its money obligations, but in that larger and more important sphere of indebtedness involving the freedom and well being of a hitherto enslaved people, will be faithfully and honorably fulfilled." Even Wendell Phillips says:

What would we not have given a year ago to have been assured that to-day we should see such a vote at the Capitol and hear such a word from the White House? Can our gratitude for such success find content in anything but the *utmost effort of which we are capable* to make that word the mightiest blow even his sword ever struck for humanity and justice?

STATE ITEMS.

The Roseburg paper says: Several large bands of cattle are now being collected in this valley to start for California and Nevada markets. Several thousand head of cattle will be taken from Umpqua valley this year.

A saw mill belonging to John F. Sutherlin, situated on the Calapooia creek above Oakland, Douglas county, was burned on the night of the 8th inst. The cause of the fire is unknown.

The Roseburg *Ensign* states that after eight months of uninterrupted suffering it has become evident that Mr. Hyman Abraham will have to submit to a re-amputation of the leg. Every other operation which presented a hope of relief has been tried, in order, if possible to preserve the stump at its present length; but the patient and his medical adviser, Dr. Sharples, now admit that another amputation is indispensable. The operation will be performed as soon as the patient recovers sufficient strength to endure it.

The citizens of the southern portion of Douglas county presented a petition to the county court at its last session, praying an appropriation to aid in exploring and measuring a road from Canyonville to the eastern boundary of Douglas county nearest Klamath Lake. The distance from Klamath to navigation at either Scottsburg or Coos Bay, by the proposed route, is probably no greater, says the *Ensign*, than that from Klamath to Crescent City; and if the road is opened it will enable the farmers of the Umpqua valley to compete with those of Rogue river in furnishing supplies for consumption at Klamath. The prayer of the petition was granted, and an appropriation of two hundred and fifty dollars made to pay for locking out and chaining the proposed road.

THE WEST.

Wool has been scarce in California, but the Spring clip is coming in and there is now an abundance of the best article.

There are a number of companies and parties making preparations to commence mining operations in Klamath river during the coming summer.

At White Pine, April 7th, the Union Express Company dispatched nine sacks of bullion, valued at $17,470 37, which was turned out by the Oasis mill at Shermantown.

The great continental roads will be joined by the 25th instant, and the line will be continuous from Sacramento to New York. Chicago will celebrate, although she is 400 miles from the road. San Francisco will celebrate also.

The Cordwainers' or Shoemakers' strike at San Francisco still continues. Workmen are coming in from the country, taking the places of the strikers, some of whom are quietly returning; and it is seriously contemplated to set Chinamen at work on this branch of industry. The original strikers have been, by their own folly, thrown out of well remunerated employment, and the places which they voluntarily left will know them no more. As a general thing these labor strikes injure the workmen only.

An Austin (Nev.) paper says: At various points on the Central Pacific Railroad men are killed in a lively fashion and very little is heard or said about the slaughtering. Our people exhibit worse than a barbaric indifference to human life, especially if the life is not worth money. A few days ago, our informant says, five men were killed outright and a number maimed at two different points on the railroad east of Argenta. In both cases the cars ran off the track and the unfortunate men were hurled into eternity.

The Sacramento *Reporter* of April 10th says: On Monday next there will leave here for White Pine district a scientific expedition composed of Lieutenant Colonels C. S. Drew and J. W. Drew, late of the United States Army; Frank E. Brown, geologist; Willie Brown, Herman Richter, surveyor and topographer, and S. M. Holdredge, artist. They are backed by some of the heaviest capitalists of San Francisco, will remain in the field about three months, and probably extend their explorations as far south as the Colorado river.

The S. F. *Herald* says: An indication of the extent to which our people are humbugged, may be given by stating there has been nearly a quarter of a million of pounds of chicory imported into this city during the past six months. Its cost in Germany is about three cents per pound, duty four cents, freight one cent—total, eight cents per pound delivered here. Consequently, when it is sold for coffee at twenty five and thirty cents per pound, there is quite a margin for profit. Medical journals are constantly exposing this and similar outrageous impositions, but still they are permitted to pass unheeded. The public can, to some extent, however, guard impositions in coffee by purchasing it unground.

Says the Sacramento *Union* of the 13th inst: Last Saturday afternoon a shocking accident occurred at Folsom, which resulted in the death of a boy about twelve years of age, son of William Fletcher. It would appear that he had been engaged with an old flint-lock horse pistol. A portion of the hammer of the pistol above the flint being broken off in such a manner that it was difficult for him to cock it with his hand, he thoughtlessly placed the muzzle of the weapon against his body, and pushed the hammer back with a piece of iron. Unfortunately the iron slipped, the hammer descended and the pistol was discharged, the whole charge entering his body, inflicting a frightful wound. Notwithstanding his injuries, he ran home, but died when he reached the house.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, April 20.—A fight occurred last night in the California Saloon on Kearny street, during which Mr Quigley, proprietor of the saloon, was stabbed in the left breast with a penknife by either Hugh Marlow or Thomas Corey. Both are under arrest.

Samuel Lowery, employed at the Pacific factory of Flint, Peabody & Co., while at work yesterday afternoon had his hand caught by a circular saw, nearly severing the hand from his wrist and mangling his fingers so as to require amputation of three.

The agreement between the sealing boat and the manufacturers of this city has been broken by Walsh & Co., who have conceded to the demands of the workmen.

A fire occurred in a small frame dwelling on McAllister street, owned by Mrs Madison. Total loss incurred $400.

Louis Navarria has instituted suit against Lynch to recover $20,000 on a promissory note.

The grand jury ignored the complaint against Simon Isaacs for the murder of his brother April last.

The departure of the Victorians is postponed until Monday next. They play the Pioneer Club to-morrow, and on Friday and Saturday a return match with the Californians will come off at the Recreation grounds.

A fair business was transacted at the Stock Board this morning, though most descriptions were weak at a decline.

VIRGINIA, April 20.—The weather continues cold, ice making in the shade most of the day and the wind raw and piercing.

The ponies of the Express companies arrived at six minutes past 5 o'clock, Wells, Fargo & Co's about three minutes ahead.

A ten horse team ran off the grade on the American flat road. When the animals and wagon made a halt, it was discovered that two animals had broken their legs, and they were killed.

Of the Gold Hill mines the *News* says: "Some little fire was found to-day. All last night steam was forced down the Crown Point shaft to the 800 foot level. The debris of the cave at the 700 foot level is being cleared away, and when done the workmen will have access to whatever fire remains, it is hoped." The *News* concludes: "We now begin, for the first time, to think that our great mining disaster, so distressing to the community, is nearly at an end."

The school children of Gold Hill contributed $54 95 to the sufferers by the calamity.

Three cases of small pox reported yesterday.

FROM THE NORTH.

VANCOUVER, April 20.—The Democratic County Convention met this afternoon and made the following nominations: Assemblymen, Rankin, O'Kane, McCall and Brazee; Auditor, Henry Caples; Sheriff, A. Coffey; Probate Judge, Jos Petrain; Assessor, C. Bozarth; Treasurer, M Wintler; Coroner, Kidd; School Superintendent, Geo. Coffey; Commissioners, Wilmot, Palmer and Graham.

Eight delegates were elected to the Territorial Convention, supposed to be divided between Lancaster, Moore and McFadden.

Industrial Notes.

Last year's crop of sugar and molasses in Indiana is worth twenty million dollars. It will be larger and more valuable this year.

Peppermint has become so popular a crop in Wayne county, N. Y., that it is estimated that over fifty peppermint distilleries will be built this spring.

Horace Greeley has purchased one hundred and sixty acres of land in Burlington county, N. J., and intends putting in sixty acres with strawberries this spring.

South Carolina has 19,000,000 acres of land. Only one fourth of this is under cultivation. The rest is mostly forest land. Good farming land has been sold in that State for $5 per acre during the past year.

The English are getting enterprising, and having caught the grape fever, now seedlings, surpassing all others, are for sale. If they keep on they will have a new potato, and sell the seed at one dollar a pound.

The earliest society for the promotion of agriculture in the United States was established in Philadelphia in 1785. The Massachusetts Society was the second institution of the kind, and was incorporated in 1792.

In England, the manufacturer of fertilizers is held so strictly to the rule of *guarantee*, that if the purchaser can make it appear in evidence that the fertilizer has failed under fair conditions, he can recover, not only the purchase money, but damages also.

Mutton put up at Chicago, according to Professor Gangee's plan, and used in New Orleans three months thereafter, has been pronounced "very satisfactory." The *Massachusetts Ploughman* says that results elsewhere are equally satisfactory, and pronounces the new process an assured success.

That true division of labor which makes communities prosperous and wealthy is capable of infinite development. Inside of the workshop we see it in greatest perfection, but when amplified between sections it is controlled by the same general laws. The manufacturing seats of the nation are right fully on the seaboard, but they are there because nature compelled them by withholding a bountiful soil. The West is rightfully the agricultural center, because the cereals grow in profusion, and also because the East is devoted to manufacturing and consuming.

WOMEN FOR THE ARMY.—The objection is frequently made to the establishment of women's rights that the political equality of the sexes would require women to serve as soldiers in war, and men generally fancy that this settles the argument in favor of their exclusive privilege. But at a recent meeting of the Sorosis of Chicago, Mrs. Mills boldly attacked this great superstition of masculinity. She spoke of the necessity of educating boys and girls together, and "believed that in time of war women should be supplied with light carbines and stand in the ranks of death with men." This is a cheering view of the subject, and we congratulate Mrs. Mills on being the first to propose it. Besides, the enlistment of women as soldiers will do very much to keep the ranks of the army full under the most desperate circumstances. What young fellow would wait to be drafted, if the pretty girls of the neighborhood had already volunteered and were busy with their light carbines learning the manual of arms? We should add that, with the modern bullet, the light carbine would be quite as deadly in battle as the old-fashioned heavy musket, so that in actual fighting the women soldiers would be equally as effective for the destruction of life as the men. If a war should occur pretty soon, we shall hope to see Mrs. Mills a Brigadier General at least.

During the war some good people in Missouri opened a Sunday school for the colored folks. One Sabbath a stout, well-dressed, good looking darkey appeared with a Second Reader, when the following conversation took place between him and the teacher. "Good morning." I am glad to see you at Sunday School. Can you read this?" "Oh yes, massa, I can read it through." "Well then I expect you had better go into my class. They are reading in the Bible. Would it suit you like that?" "Oh, massa, I'd rather read in dis *Lectures on Good Living, and Cookery Book*." Sambo was allowed to have his own way.

CONGRESS FOR THE INTERIOR.—The White Pine *Semi-Weekly Eagle* of March 7th has the following:

It was universally circulated by the friends of John Conness, just after the election, that he was to receive from General Grant the post of Secretary of the Interior. Although he failed to get it, we are assured that he has outflanked the General and will come to White Pine, where he will take Secretaryship of several mining companies. That will surely make him Secretary of the Interior—in spite of Grant.

REMARKABLE SAGACITY.—An exchange publishes the following:

A servant out West recently tried whisky to kill rats. She made it sweet with sugar, crumbled in bread, and set it down in the cellar. A few hours afterward she went down and found several rats gloriously fuddled, engaged in throwing potato parings and hauling one another up to drink.

The Vallejo *Chronicle* says:

The above is a pretty good story and we believe it to be true, after having seen an experiment of a similar kind on some crows that persisted in digging up corn which had sprouted and was showing its tiny blades above the ground. A hired farmer on a farm not far from Napa was detailed to keep watch on the cornfield, and not let the black marauders invade the premises, but like many other men a similar situation, tried to plan a method whereby so much labor would not have to be performed, so he hit upon the plan of soaking some corn in whisky and placing it in the field, so that the crows would surely eat it and get drunk and then he thought he would have a sure thing on them, and could kill them easily. He had tried to shoot them with a shot gun, but crows can smell powder a long way. After soaking some corn over night, he put a bountiful supply in the field next morning, and in about two or three hours he went out to see how things were progressing, and mark you what follows. One of the crows a little larger than the rest, had taken possession of almost all the corn, and had built himself a bar out of clods of earth, and was retailing the whisky-soaked corn to the other crows, charging them three grains of sprouted for one soaked grain. Our hired man had not the heart to kill any of God's creatures that seemed so much in their actions like mankind.

THE CHEAPEST AND BEST SOAP in the market.—Throw away your Patent Washing Machines, &c., &c. In order to more generally introduce their Soap, the Imperial Soap Co. will sell their Concentrated Soap from this date until the first of May next, at seven cents per pound. Clothes washed with this Soap, requires no rubbing, thus saving a great amount of labor, wear and tear. Washing can be done in one-half the time required by any other process. Warranted to not injure the most delicate fabric. Renders the clothes a pure *white*, and is equal, if not superior, to Castile soap for the hands. Parties wishing to examine or test the soap are invited to call at the Manufactory, two doors above the Furniture Rooms of Hurgren & Shindler, First street, Portland, Oregon. The Trade supplied at liberal rates.

IMPERIAL SOAP CO

From the Army Hospital; the bloody battle-field; the mansion of the rich and the humble abode of the poor; from the office and the sacred desk; from the mountain top, distant valley and far-off islands of the ocean, from every nook and corner of the civilized world, is pouring in the evidence of the astonishing effects of DRAKE'S PLANTATION BITTERS. Thousands upon thousands of letters like the following may be seen at our office:

* * * I have been in the Army Hospital for fourteen months, speechless and nearly dead. At Alton, Ill., they gave me a bottle of Plantation Bitters. Three bottles have made me well again. C. H. FLAUTE.

MR. M. RASSE, the millionaire of San Francisco, visited and patronized THE OREGON DISPENSARY on his first arrival in this city, because he heard that it was the cheapest and most elegant Drug Store on the coast. We also are furnishing the toilet articles and medicines to the guests of Mr. Holladay for the excursion trip to Victoria and Puget Sound, which is a further evidence of our increased popularity. Everybody now procures all articles in our line at THE DISPENSARY because our medicines and goods are *fresh, pure and cheap*.

LOWNSDALE & KALLENBURG,
Oregon Dispensary, 73 First street.

THE NEW ADMINISTRATION has filled the various offices; so have BARMAN BROS. filled their spacious store, corner Front and Morrison Streets, with the Latest Styles of Merchant Tailoring Goods, consisting of French Cassimeres, Beaver, Broadcloths and all kinds of Vestings, also a fine Stock of Ready Made Clothing, and Gents' Furnishing Goods, which they are enabled to sell lower than any other House in their line, as their Mr Isaac B. is constantly in the San Francisco market, purchasing at the most advantageous prices, of which their customers always have the benefit. Go and see them—no trouble to show goods.

IT is nothing more than the truth, if people tell you that though KOHN & FISHEL are not selling off at cost, they nevertheless do sell at lower rates than any other house in Oregon. Their stock of Clothing cannot be surpassed. It is undoubtedly the finest, neatest and most fashionable in the State. Every person would do well to call on Kohn & Fishel, No. 91 Front street, before purchasing elsewhere.

DANCING ACADEMY.—Prof. Cardinell's classes are held every week day evening, and on Saturday afternoon for children. Hall in Poppleton's Building, First street.

ROAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in their construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Roagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense We have come to the conclusion to use this new invention ourselves and recommend its use in all cases We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN]

DATES TO APRIL 19.

Washington News.

WASHINGTON, April 19. The following were among the nominations to-day: For Ministers Resident, Alfred T. Turbitt at San Salvador; Alex. Trussell, of Pennsylvania, at Quito; H. H. Millard, Arkansas, for the Sandwich Islands; Consul, N. Niles, of Illinois, vice David A. Bennett, of West Virginia, at Melbourne; Postmaster Thomas J. Sherwood, at Marysville, California; Robert Gardiner, for Register of the Land Office at Humboldt, California; John H. Stephens for Register of the Land Office at La Grande, Oregon. James Hunt for Receiver of Public Moneys at Boise, Idaho; Eli Davis for Surveyor General of Nevada; Geo. W. Bowie, for Naval Officer at San Francisco.

Wm. A. Howard was confirmed as Minister to China.

The President to-day sent to the Senate the following nominations: L. E. Dumas, of Louisiana, as Minister to Liberia; J. J. Coffee, of Pennsylvania, as Secretary of Legation at St. Petersburg. Consuls, Hugh Hilderbrand, of North Carolina, at Comde; B. Randolp Keine, of Pennsylvania, at Kencaig; N. Niles of Illinois, vice Jas. Park, of Indiana, at Aix La Chapelle; Chas. G. Dyer, of Illinois, to Bristol.

The following are selected as the Board of Visitors for the Naval Academy: G. H. Stuart, of Philadelphia, Cornelius Vanderbilt, J. D. Hawley, of Connecticut, Dr. Kettles, of Galena, S. S. Wadsworth, of Maysville, Kentucky, Judge Humphreys, of Alabama.

The Senate confirmed Edward McCook, as Governor of Colorado; C. Crowe, of Alabama, as Governor of New Mexico; Wm. A. Howard, of Michigan, as Envoy Extraordinary and Minister Plenipotentiary to China.

The Director of the Mint has obtained specimens from a Charlotte mine which assay from $1,630 to $9,050 per ton of gold, and of silver $1,150 per ton.

NEW YORK, April 19.—A Washington special says it is confidentially declared that a peremptory demand will be made on the Spanish authorities of Cuba for the immediate release of the brig *Mary Lowell*, and the surrender of the two passengers taken from the *Lizzie Major*. A refusal of the demand will be followed by hostile demonstrations of the navy.

The Philadelphia navy yard has received orders for the immediate fitting up of the monitors now there.

The *Herald's* Washington special declares that the Government is making active preparations for war on Cuba.

The *Tribune's* special says the Government will preserve strict neutrality.

CHICAGO, April 19.—A *Tribune* special says Reverdy Johnson asks to be allowed to remain till August, but his request will not be granted.

It is probable our government will allow the British Government to make the next advances for the settlement of the Alabama claims, and negotiations will be transferred from London to Washington.

It is generally believed that the Senate will adjourn on Wednesday.

Secretary Cox has ordered, in the McGarrahan case, that no patent be issued for the land in dispute until Congress finally determines the case.

The *Times'* special says the new Consul General at Cuba, Plumb, was former Secretary of Legation in Mexico. He has received his instructions and is about to depart to look after the better protection of American citizens. The same special thinks the President's Cabinet take a conservative view of the claims in question, and that Motley will receive only general instructions, to be followed afterwards by details.

The removals from the Treasury Department were intended to reduce the force. No appointments will be made to fill vacancies.

NEW YORK, April 17.—Intense excitement was created in the Produce Exchange to day, on the discovery of a defalcation of $160,000. The defaulter is Peck, of the firm of Parker & Peck, of Brooklyn. Peck has disappeared, and it is reported that he sailed for Europe. It is said some of the victimized firms have been obliged to suspend.

There is no doubt that a Cuban expedition is preparing, but it will not sail from New York, but from some point further south, probably.

Work on the East River bridge will begin on the return of the Commissioners from the West, where they are examining the bridges at Cincinnati and elsewhere. The plans of the engineer, Roebling, are approved.

All the questions argued before Justice Blackford, in the Union Pacific Railroad case, will be argued before Justice Nelson, commencing about the 19th inst.

Judge Bernard has issued a supplementary injunction forbidding the Corn Exchange Bank to pay out any money to T. C. Durant.

NEW YORK, April 19.—A committee is preparing to erect a monument in Central Park to Humboldt. Permission has been granted by the King of Prussia to make a casting of a bust from one being made in Berlin.

It is said Dana has declined the appointment of Appraisership of this port.

Miscellaneous.

NEW YORK, April 17.—A Havana special says the British Consul has entered an energetic protest against the condemnation of the brig *Mary Lowell*.

SAVANNAH, April 17.—A letter from Bayonna announces the arrival of three expeditions from Florida, as volunteers of the patriot forces, which are increasing daily.

The Spanish troops are deserting and joining the patriots.

HAVANA, April 19.—The Catalonian volunteers have arrived and were received with immense enthusiasm. Two negroes among the spectators, who shouted "vive Cespedes!" were instantly killed.

CINCINNATI, April 17.—The Commissioners from New York are here viewing the suspension bridge, with the view of taking plans for a similar structure over East river.

BALTIMORE, April 17.—Several firemen were seriously injured to night by falling walls.

NASHVILLE, April 17.—A Republican meeting in Blount county recently denounced the nomination of General Longstreet as an injustice to the widows and orphans of loyal Tennesseans.

Representative Stokes addressed the people to-day. A portion of the audience were negroes. His speech consisted of a vindication of the acts of Congress, in reply to aspersions by Johnson. He accused Johnson of being the cause of all the trouble in Tennessee. He said he had prevailed on Lincoln to except Tennessee from the emancipation proclamation, that he might obtain all the credit. He denounced his statement of facts, and said he had betrayed every party and every body who had trusted him.

NEW YORK, April 19.—The *Herald's* New Orleans special says a formidable organized expedition is preparing for Cuba, beyond a doubt. The command has been tendered to the rebel General Harry Hazen, but he declines it. Gen. Steedman will probably be the leader. Collector Casey, who is brother-in-law of President Grant, says he does not want to hear or know anything about the expedition. The District Attorney appeals to Washington for instructions, and receives only vague and general ones.

BALTIMORE, April 19.—The firemen buried under the ruins last night were got out to-day dead. The building was the oldest in the city and had been occupied as headquarters by General Hoskinsko.

ATLANTA, April 19.—Dr. Ayers, of the Georgia Legislature was found dead by the road near Louisville, Georgia. He was shot between the eyes.

BOSTON, April 19.—The funeral of Chas. Rogers, of the *Journal*, took place this afternoon. It was largely attended.

ATCHISON, April 19.—The immigration to Northern Kansas is unprecedented. The crops promise well.

Cuban Affairs.

HAVANA, April 17. Preparations are being made for an enthusiastic reception of Gen. O'Neil, on his arrival from Spain.

Several lots of sugar were seized to-day. Permission of the government is required to enable persons to sell any kind.

The Internal tax on arable lands is eighteen millions, paper currency.

Charges have been preferred against the Minister of War for his action in Puebla and Yucatan.

Caballas, who commanded in Yucatan during the disturbance, is also implicated.

From Mexico.

Mexican advices say Congress opened its session on the 1st inst. Juarez's speech was optimistic. The following laws have been submitted by Congress: To tax the mines; substitute stamps for stamped paper; and to abolish coston duties.

The treasury deficit is nine and a half millions.

The Congress intend to suspend certain articles of the Constitution in order to execute banditti and certain suspected persons without a trial.

The American Consul Myers, is still in prison.

The revolutionists are now said to declare for annexation to the United States. Other Northern States have taken the same course.

The rift of a quarrel between Rosecrans and Juarez are announced.

The revolution in Sinaloa is increasing.

A telegram from the City of Mexico says Juarez has authorized the recognition of the rights of Minister Brink.

General Bucota arrived to-day. Arches were erected and preparation was made for an enthusiastic reception.

The Catalonian volunteers are hourly expected.

The speech of Signor Lonius, Speaker of the House, is denounced as false, and the charges of personal motives against members of Congress, by certain journals, insulting.

Cabarlos, who commanded in Yucatan during the disturbances, also vindicated all the ministry; approved Romera's financial report and excepted to Tejda, who was an influential tool of President Juarez. A general crisis is imminent.

The revolution in Sinaloa is increasing. Jesus Maria had 4,000 men and had pronounced against the government.

BY ATLANTIC CABLE.

BRUSSELS, April 17.—The ministers strike near Mons caused a riot and much alarm.

PARIS, April 19.—In the Corps Legislatiff Thiers announced that commercial liberty in France is a farce, and is like the political liberty of the French people. A heated dispute ensued between the President and Thiers, which threatened to break up the session, but was finally appeased.

Quartier demanded that the regulation of commercial treaties be invested in the Corps Legislatiff instead of the Crown.

MADRID, April 17.—The Directory is said to have been formed, consisting of Serrano, Prim and Olozaga.

MADRID, April 19.—Gunboats for Cuban waters are rapidly building, and it is expected they will be ready by end in June.

Difficulties have arisen in the Cabinet in regard to customs.

It is probable that the Minister of Finance and other members of the Government will resign in consequence of Prince Frederick Charles of Prussia and the Duke of Luxemburg being presented as candidates for the throne of Spain.

LISBON, April 17.—The military rising is feared at Oporto. The Government has taken strict precautions.

ROME, April 17.—It is rumored that Napoleon has ordered the evacuation of Rome by the French troops next June.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, April 19.—C. Prescott, bookkeeper for the printing house of Francis Valentine, died suddenly last night at his residence, of bleeding at the lungs.

The U. S. steamer *Resaca* arrived from Mazatlan yesterday afternoon.

The ship *Cesarewich*, lately seized by the Collector of the port of Sitka, was released to-day, having violated no law.

Wm. Thompson, who attempted suicide on Saturday, will recover.

The 10th District Court adjourned till May 30.

Shipping.

Arrived—April 18th, the British bark *G. J. Jones* from Newport, Wales; steamer *Ajax*, Portland; ship *Cesarewich*, from Sitka.

Sailed—April 17th, schooner *B. H. Ramsdell*, for Trinidad; brig *Olga*, for Sitka; schooner *F. L. Stee*, for Sitka. April 19th, schooner *Guard Light*.

Novel Proposition.

[From the San Francisco Bulletin.]

A singular proposition has been pending in the Legislature of the State of New York. It is no less than a bill to compel the publishers of newspapers to state in each issue the exact number of copies of its preceding issue. Of course, not one public journal in ten in New York would be in favor of such a law, for it would tell a tale which would be unprofitable to the parties concerned. The practice all through the country is to deceive the people as to the circulation of newspapers. Those journals having but trifling circulation oftentimes claim that they have the most unbearable of patronage.

The New York *Tribune*, of course, is in favor of the passage of the bill, as it has a respectable circulation. In its comments upon the subject it uses the following language:

"This bill is identical in principle with the laws which have existed from time immemorial whereby dealers are required to sell by correct weights and measures, and are punished for using any other. In vain does a grocer say, 'My weights and measures are satisfactory to my customers, and no one else has any concern with them;' the law says, 'You must be taught better, or, at all events, must do better. Charge what you please for your sugar, butter or tea, but you must give the precise quantity you profess to sell or you will see trouble.' The bill now before the Assembly simply applies this principle to periodicals which sell space to advertisers. Each publisher may charge whatever he pleases; but he must truly state what he gives for the money.

"Of course, there are publishers who prefer darkness to light and fraud to dishonesty. It suits them to charge half as much for sending an advertisement to 3,000 subscribers as is paid for sending it to 30,000, and then persuade the swindled customer that they are doing his work cheap.

"It is very much for the advertising public to determine with accuracy what is the circulation of different journals. In this city, for instance, it has been no uncommon thing for a journal circulating but a few hundred copies to claim that it has circulated thousands. Of course, it does not pay the advertiser to publish his notice in a journal which is only read by 1,000 or 2,000 persons, when he can place it where it is read by 10,000 persons. The space of one journal may have but little value because it is a class journal, while the other goes into every counting room and family in the city or State. The truth is, advertising is dear at almost any price in a paper which is only seen by a few persons, or the few who read it seldom glance at its advertisements, while in leading journals the advertisements are a portion of the current business news of the day. For instance, what man of business, in looking over the London *Times*, would pass the advertising columns? In America large newspapers rely on the United States, advertisements of the leading journals must be read by business men. Five lines in such a paper is worth more than columns in a journal of inferior standing. Only the advertisements of a leading journal are the most important portion of the paper to a very considerable number of persons. Judicious advertising unquestionably assists in publishing matter which of itself would be read by the greatest number, and one which is generally read by persons of business and wealth. Advertisements are the business news of the day, and a paper which does not contain them is not complete. Of course, there are many persons who read the advertisements as they do the reading matter, because they are interested in the business of those who advertise; but the majority of readers look at the advertisements because they are interested by them independent of them in the light of their rights. Convert liberties into rights, surround rights by guarantees, intrust the keeping of these guarantees to forces capable of maintaining them—such are the successive steps in the progress toward a free government."

THE EAST.

On the Chicago and Northwestern railway a train recently ran ninety-one miles in ninety minutes.

Kansas is said to have the best system of railroads constructed and projected of all the States in the Union.

The Democratic State Central Committee of Pennsylvania has decided to call a convention for July 14 to nominate a Gubernatorial candidate.

The story that Senator Fenton of New York received money for signing bills while Governor of New York is exploded. The slander had nothing to stand upon.

A bill has been introduced in the New York Assembly creating a bureau for New York city, with power to punish by heavy fines and imprisonment, frauds in weights and measures and the adulteration of food.

The contract for building a railroad between Leavenworth and the terminus of the Central Branch of the Union Pacific Railroad at Atchison, has been awarded to A. H. Waterman for $350,000. This is exclusive of iron. The road is to be in running order by the 1st of September.

Three hundred and sixty-three thousand one hundred and thirty-three Union soldiers, nearly a third of a million, lie buried in the seventy-two national cemeteries under charge of the Government. This is, let it not be forgotten, but a portion of our great sacrifice. Thousands of bodies were never recovered, and every village in the North guards one or more, frequently its scores, in its country grave-yard.

The Welsh are an enterprising, industrious and intelligent class of people, and have contributed a very valuable element to our European immigration. The experiment of colonizing them in some force is in a fair way of being tried, as Mr. J. Mather Jones, of Utica, N. Y., the publisher of *Y Drych*, the Welsh newspaper, has secured nearly 100,000 acres of land in Kansas, and proposes to settle the tract with his compatriots.

The Louisville *Courier-Journal* has another eulogy of John C. Breckinridge, in the course of which it says: "He is not old, nor gray-headed, nor cast down. Why should he be so? His participation in the Confederate movement need not be, and doubtless is not, a source of regret, and a residence of four or five years abroad has, in general, a rejuvenating tendency. General Breckinridge is certainly above the reach of current criticism. He seeks no office, but he shirks no responsibility, and claims simply the privileges of private citizenship after his long and very brilliant career."

Miss Betty Van Lew, says a Richmond paper, is the recipient daily of letters from all parts of the Union, congratulating her upon the appointment she has received from the President, in reward for services to the Union and fidelity to the flag. As it would be impossible for her to reply to each of her well-wishers, she requests us to return them her thanks by general proclamation. So, in her name, we say: "Thank you, ladies and gentlemen, for your kind sympathies and good wishes." She is also bothered, almost as much as General Grant, with applications for places in the Post Office, and asks us to state that there are no vacancies.
